**List of the courses related with cross cutting issues with descriptions:**

Course	Description
<b>Gender Equality &amp; Women Empowerment (under NSS )</b>	National Service Scheme (NSS) regularly conducts programs. In the programme we address some gender issues like importance of girl's education, sexual harassment and women empowerment. Also importance of gender equality and women empowerment is discussed in the programme.
<b>Environmental Awareness &amp; Sustainability: (under NSS and Community Medicine department)</b>	To increase environmental awareness among medical students we are regularly conducting environmental awareness and sustainability programme through NSS and Community Medicine Department. In this programme, we used to discuss about environmental problems like pollution, global warming, ozone layer depletion, acid rain, natural resource depletion, overpopulation, waste disposal, deforestation and loss of biodiversity. In this programme, we also discuss about our role to maintain environmental sustainability.
<b>Human values: (under Community Medicine department)</b>	Apart from teaching we also impart human values such as honesty, loyalty, reliability, efficiency, commitment, open mindedness, consistency, compassion, determination and boldness that help in building a character. We have included this topic in PSM subject.
<b>Health determinants: (under Community Medicine department)</b>	Through the various field activities conducted by Community Medicine department students are exposed to the various factors and Health determinants like income and social status, social support networks, education and literacy, employment/working conditions, social environments, physical environments, personal health practices and coping skills, healthy child

	development, biology and genetic endowment, health services, gender & culture affecting the health of the society.
Right to health : (under Community Medicine department)	Topics like <b>RIGHT TO HEALTH</b> of refugees and other marginalized population is taught to the students in Community Medicine while discussing the various International Health Organisations like ICRC, UNHCR etc.
Demographic Issues: (under Community Medicine department)	Demographic issues like Population explosion and skewed Male Female ratio, Population Pyramid, Increasing Growth rate of Population, Urban-Rural disproportionate growth leading to imbalance on Health infrastructure is discussed in Community Medicine.
Professional ethics: (under FMT department)	Topics related with medical ethics and negligence have been conducted every year under FMT department. The basic principle of professional ethics that have been taught in the lectures are autonomy, justice, beneficence, non-maleficence, integrity, respect for human rights, communication with patients, examination of female patients and children and explanation of consequences of treatment
